**NOTICE OF SPEED HUMP INSTALLATION PROJECT
ON JONES MILL ROAD**

May 5, 2017

Dear Resident:

This letter is to inform you of the upcoming speed hump installation project in your area. The project is being managed by the Montgomery County Department of Transportation (MCDOT), Division of Highway Services. The purpose of this project is to install speed humps along Jones Mill Road, between East-West Highway (MD 410) and Jones Bridge Road.

This project will involve excavating the existing pavement and installing three new standard speed humps that meet current county specifications. Crews will maintain continuous traffic at-all-times utilizing single-lane closures and/or alternating one way traffic patterns. Please follow the direction of the flaggers as they guide motorists through the construction zone.

The speed hump installation project has been tentatively scheduled to begin on or about May 10, 2017. Weather permitting, the project is expected to take **10 days** to complete. MCDOT will make every effort to expedite the work to facilitate an accelerated completion with the least amount of inconvenience to nearby residents. Should you have any questions or comments, feel free to contact Mr. Josh Faust, Public Outreach Manager, at 240-777-7642 or Mr. Yisa Adegun, Project Manager, at 240-777-7641.

We thank you in advance for your cooperation and apologize for any inconvenience this project may cause.

Sincerely,

John Birton
Program Manager
MCDOT
